

Performance-Based Transit Planning Agreement

On May 27, 2016, the final rule for statewide and metropolitan transportation planning was published, based on 2012's Moving Ahead for Progress in the 21st Century (MAP-21) Act and 2015's Fixing America's Transportation System (FAST) Act. As part of this final rule, 23 CFR 450.314 (h) requires the metropolitan planning organizations (MPO), State(s), and the providers of public transportation (referred to here as "providers") to jointly agree upon and develop specific written provisions for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, and the reporting of performance to be used in tracking progress toward attainment of critical outcomes for the region of the MPO.

The Georgia Department of Transportation (GDOT), the MPO, and provider(s) hereby agree to share transit asset management data, targets, and plans as follows:

- Providers will share their Transit Asset Management (TAM) Plan, and TAM targets with the MPO and GDOT and report to the National Transit Database.
- Providers will coordinate with the MPO and GDOT during the development of their TAM Plan and targets.
- The MPO will set TAM targets for their planning area in coordination with providers in their planning area and share those targets with providers and GDOT.
- GDOT sponsors a Group TAM Plan for participating Tier 2 transit providers, collects inventory information from these providers, sets targets in coordination with the providers, and shares the TAM Plan with providers and MPOs statewide.
- MPOs will reflect TAM targets in their short range and long range planning documents, and share with GDOT and providers in their planning area.
- GDOT will provide a Statewide Transportation Improvement Program (STIP) Performance Report, reflecting TAM targets set by the GDOT Group Plan, and will share this report with MPOs and transit providers statewide.
