## c. Carbon Reduction Funds Program – Action Item

Project	Description	Safety	Equity	Mobility	Resilience	Air Quality	Readiness	Carbon Emissions	Savings	Jobs	Eligibility	Context	Total
Interstate 95 Highway 84 Street Light Replacement	Replace existing street lighting with modern, high-efficiency LED lighting	3	1	1	2	2	2	2	3	1	3	3	23
South Main Street Corridor Efficiency Project	Improvements to pedestrian lighting and traffic signal control system. Installation of efficient LED post-top fixtures	3	2	3	2	3	3	3	2	2	3	3	29

### Summary:

#### Interstate 95 Highway 84 Street Light Replacement

- Strong safety + efficiency project, but limited impact on mobility, equity, and broader emissions strategy

#### South Main Street Corridor Efficiency Project

- High-performing, multi-benefit project aligned with CRP goals (emissions + efficiency + mobility)

## 4. New Business

### c. Carbon Reduction Funds Program – Action Item

#### Scoring Evaluation Considerations

- South Main Street Corridor Efficiency Project — 29
- I-95 / Hwy 84 Lighting Project — 23
- The scoring difference (29 vs. 23) is meaningful but not extreme
- Both are fundable

TCC recommended that **both** projects be funded

- Full amount of funding for I-95 lighting project, with remaining funds allocated to South Main St. corridor project
- South Main St. corridor project will be supplemented with funds from other funding sources as they are identified and become available.

## 4. New Business

### c. Carbon Reduction Funds Program – Action Item

#### **Suggested Motion:**

- Once documents have been finalized, staff will present to the committees for review and action.
